

## STEPHANIE RAPP INTERIORS

In the transformation of this Westport dining room, Stephanie Rapp's expertise shines. By weaving her magic into the room, she captures the essence of Westport's signature style. The fusion of blue and white here, enriched by textural touches, invigorates the space. From Kebabian's Rugs' ribbed floor covering to sumptuous, crushed velvet on the Tomlinson dining chairs and Winfield Thybony's textured wallpaper, opulent materials converge to complete the stylish space.

The highlight is Hudson Lighting's modern cubist chandelier, casting an unconventional spell with cream shades against rich blues. Sunlight through Romo window treatments dances with the furnishings' textures, elevating the ambiance. Curated art by local talents Michelle Sessions and Rena B. Levine were sourced through Westport's Swoon and add a tactile layer, while a triptych, woven from watercolor panels, invites exploration and mimics the chandelier's geometric lines.
